

## When I See the Water

words & music by Darrell Grant

Comin' like a river through the plain  
Winding through the heat in search of rain.  
Carrying me closer to the sea,  
Shackled though I seem, my soul is free.

I said the things you told me not to say  
Beaten but I'll go on anyway  
Callin' out the truth for all to hear  
"People, time to put away your fear."

I have seen the water tumbling down  
pouring out its truth upon the ground.  
Life is not a mystery to me  
When I see the water tumbling down.

People say they want the world to change  
Then try to put a price on the exchange.  
Could it be they do not wish to know  
That this world ain't like a TV show.

When they see the water tumbling down,  
pouring out its wisdom all around.  
They will see what man can truly be  
When they see the water tumbling down.

When you gonna listen to the story  
When you gonna change your heart of stone?  
All that really matters is some human understanding  
It's been so long, so long

I am just an ordinary man  
Looking to bring peace into my land.  
Trying hard to find a better way  
Hoping that I live to see the day.

When we see the water tumbling down  
Spreading out the message all around.  
Love's the only sword we'll ever need  
When we see the water tumbling down.

When we see the water tumbling down  
Pouring out its truth upon the ground.  
Then we'll have everything we need  
When we see the water tumbling down.
